

Starting an online application through applyforlunch.com

As a benefit to parents for the 2013-14 school year, parents will have the option to complete and submit our free and reduced meal application electronically through the internet. The application itself will not be able to be completed until thirty days before the new school year starts. The steps below are the steps on how to get started:

1. Open up an internet browser (Internet Explorer, Mozilla Firefox, Google Chrome, Safari) and type in www.applyforlunch.com in the address bar. You should see the image below on your screen.

2. Click on **Start Your Online Application**. (see above)
3. Next, Select Your School District by:
 - a. Typing in your **Zip Code** or selecting your state for the dropdown list and click **Search**.
 - b. Then, choose the school district your child attends. Granite School District should be the only district they can select.
 - c. Click on **Select District & Continue**.

4. At this time you will get a message explaining that we are not accepting applications at this time (*bottom left image*).

Applications will be available thirty days before the first day of school.
